

Nicaise

Sculpted for the eye. Scented to escape.

A SENSORY ESCAPE INSPIRED BY THE CARIBBEAN

Scented creations handcrafted in Paris

Nicaise is a French decoration brand born from the story of its founder, Célia, and her Guadeloupean heritage. At the crossroads of contemporary design and well-being, the Nicaise universe creates a dialogue between the object and the perfume to transform the home into a destination.

"For me, escape is as much a visual experience as an olfactory one. Each creation is conceived as a piece of decoration in its own right, a poetic dialogue between the material and the warmth of a perfume from elsewhere."

- Célia CURIER, Founder & Designer

Designed to offer a moment of well-being without leaving home, the brand combines Parisian elegance with the solar poetry of the Caribbean. Each object is designed to evoke an immediate emotion: the pleasure of contemplating a sculptural piece even before discovering its olfactory signature.

THE MATERIAL & THE PROCESS

Seven days. Eight steps. A piece shaped by hand.

Each Nicaise creation bears the imprint of craftsmanship and patience. In the brand's Parisian workshop, seven days and eight meticulous steps are required to create a unique piece. Nothing is industrialized, every casting bubble and every shade of color testify to the uniqueness of the piece.

The brand chose Jesmonite, a composite material based on water and minerals without solvents or VOCs (Volatile Organic Compounds). Poured and then hand-tinted, the material offers remarkable strength, a velvety touch and a visual rendering close to high-end glazed ceramic.

THE VESSEL

Jesmonite poured and dyed by hand
Logo stamped in the material
Screw-on lid to preserve the fragrance

THE WAX

GMO-free vegetable coconut soy wax
Clean and long-lasting burn
Excellent scent throw

THE WICK

Natural cotton fibers
Guaranteed lead-free
Optimal diffusion and stable flame

THE FRAGRANCE

Fragrances developed in Grasse
Phthalate-free, CMR-free
Not tested on animals

THE OBJECT & THE FRAGRANCE

Design & Uses

The object decorates the space, the fragrance dresses it and the combination of both creates the destination.

THE SIGNATURE VESSEL

At the heart of Nicaise lies a signature object: our screw-top jar, handcrafted in jesmonite in our Parisian workshop. It stands out for its warm hues, enamelled appearance and soft touch. Designed to last, this vessel transcends the traditional candle lifecycle. Once the wax has been consumed, the object retains all its decorative value or welcomes a new refill.

RENEW THE FRAGRANCE

To extend the life of the vessel and vary the atmospheres according to the seasons and your desires, Nicaise has imagined a scented refill designed for a seamless transition:

- **Ready to Use:** The wax refill is a scented block with a cotton wick that inserts directly into the vessel.
- **Olfactory freedom:** An effortless scent change to alternate between our 7 solar fragrances crafted in Grasse, all while keeping your favorite vessel.

The Scented Refill

SIMPLE, ECO-FRIENDLY & COST-EFFECTIVE

1 wick made of natural lead-free cotton
Scented wax block of 200 g (7.05 oz)
Approx. 40 hours burn time

THE SIGNATURE COLLECTION

Four creations, four escapes.

The brand's permanent collection, the Signature Collection unveils four distinct olfactory creations. Each one blossoms in a handcrafted jesmonite vessel with warm and solar hues, like an invitation to a motionless journey.
